

GlampLaunch

GlampLaunch specialises in bespoke, high-quality pods designed for various uses. Our main product range includes glamping pods, garden offices, wellness pods (like saunas), café and hospitality pods, and alternative housing solutions. Each pod is customisable, combining functionality with a premium, stylish feel. For example, our glamping pods are perfect for businesses in the luxury camping market—fully equipped with kitchens, bathrooms, and even off-grid features like solar panels.

Our wellness pods, such as saunas and gym pods, are ideal for fitness lovers or businesses offering high-end experiences. With GlampLaunch, clients can customise size, layout, colours, roof shingles, and extras like hot tubs or fire pits.

We cater to private clients, resorts, and businesses, focusing on durability, quality, and style—delivering more than just a product, but a solution that adds value to lifestyle or business.
